In lieu of submission of an Erosion and Sediment Control Plan for the construction of this single family dwelling, I agree to comply with any reasonable requirements determined necessary by employees of the City of Staunton, representing the Erosion and Sediment Control Program Administrator. Such requirements shall be based on the conservation standards contained in the City of Staunton Erosion and Sediment Control Ordinance, and shall represent the minimum practices necessary to provide adequate control of erosion and sedimentation on or resulting from this project.

As a minimum, all lots will have a stone construction entrance, silt fence will be constructed as needed and all denuded areas on the lot shall be stabilized within seven (7) days of final grading with permanent vegetation or a protective ground cover suitable for the time of year.

I further understand that failure to comply with such requirements following notice by the representatives of the City of Staunton could result in citation for violation of the City of Staunton Erosion and Sediment Control Ordinance.

Section 13.05.060 of the City Code requires that a performance Guarantee be filed with the Engineering Department in the amount determined by the Program Administrator. Such performance guarantee shall be conditioned to ensure all work conforms to approved standards and specifications as specified in the approved Erosion and Sediment Control Plan.

Final Inspection of the project shall be made by the Program Administrator or designated agent. The release of any Performance Guarantee is contingent upon the findings of such inspection.

By signature below, the applicant certifies and agrees to the requirements of this agreement.
