

Applying for a permit to install a generator?

All applicants must submit the following:

Electrical Permit Application

Mechanical Permit Application

Site Sketch / Generator Manufacturer Specifications

Note: There is a 3 day wait period/ review time for issuance of permit.

Inspection Policy on Generators

Applicant will need to request the following inspections:

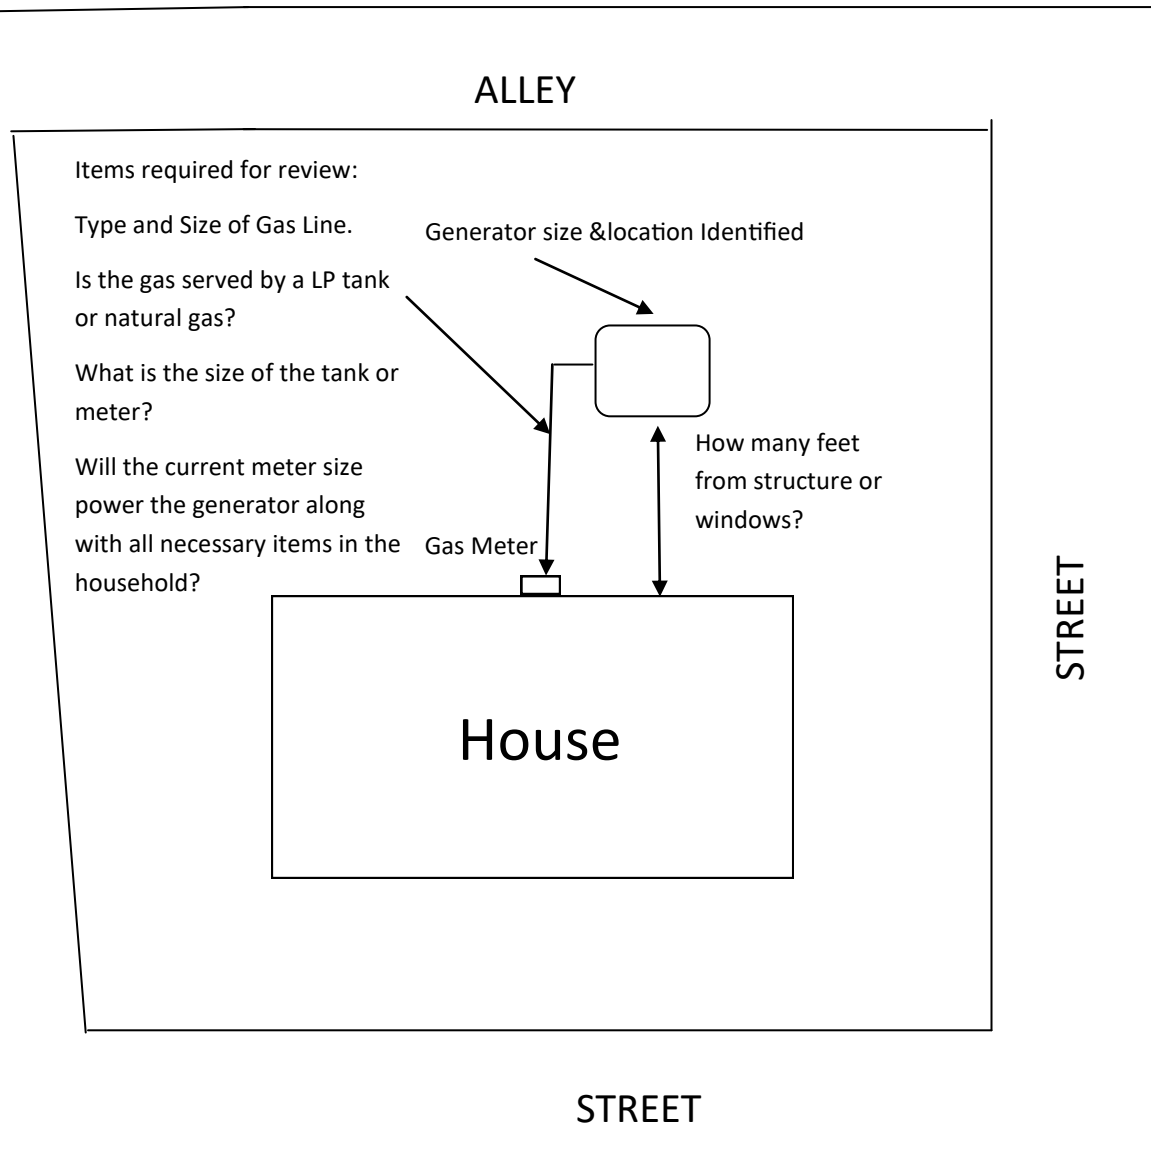

Gas line inspection (pressure test)

Electrical Rough-in (line in ditch)

Gas Final- Generator must run

Electrical Final - Generator must run

**It is the recommendation of our office for you to schedule to Gas & Electrical Finals at the same time. The generator must be operational for both final inspections. **
