Staunton Encourages The Rehabilitation of Older Properties . . .

The City of Staunton provides a tax abatement for qualifying rehabilitated real estate within the city. It is designed to encourage the substantial rehabilitation of older properties and is derived from enabling legislation contained in the Code of Virginia.

The abatement is a lump sum subtracted from the property's real estate assessment every year for seven consecutive years, and is equal to the increase in value of the structure due to the rehabilitation.

HOW TO QUALIFY . . .

In order to qualify for the abatement, the following conditions must be met:

- The structure must be at least 25 years old;
- In the case of **residential** real estate, the structure must experience an increase in assessed value of at least 40 percent, without increasing the total area of the structure by more than 15 percent;
- In the case of **commercial** real estate, the increase in assessed value must be at least 60 percent, with no increase in total area;
- The owner must have acquired the appropriate building permits for the work being performed;
- The owner must file an application with the City Assessor prior to the rehabilitation at a cost of \$20.00;
- The City Assessor must conduct an inspection prior to the start of the rehabilitation and another upon completion to certify that the work has been done.

HOW IT WORKS . . .

The abatement is applied beginning January 1st in the year following completion of the rehabilitation and continues for 7 full calendar years. It “stays with the property”, meaning that the right to the abatement is automatically transferred to any subsequent owners within the 7-year period.

In the case of projects which are not completed prior to January 1 and which stretch out over more than one year, the owner pays taxes on a normal basis until such time as he or she declares the project complete. The abatement begins the following January 1st, using the assessment of the structure when the project was undertaken as the base value.

WHERE CAN I APPLY ?

Applications for rehabilitation abatement are available at the Office of the City Assessor, City Hall, 116 West Beverley Street. The office is open Monday-Friday from 8 am to 5 pm. Applications must be completed by the owner of record or his designated representative. Call us at 332.3827 to arrange for an inspection.
